SUMMARY

AI & Data Science undergraduate with hands-on experience in building machine learning and deep learning solutions for real-world applications. Skilled in Python, data analysis, and model deployment, with experience in developing ETL pipelines, predictive models, and interactive dashboards. Passionate about solving business problems using data-driven approaches.

EDUCATION

Marathwada Mitra Mandel Institute Of Technology | (SGPA :8.05)

Nov 2021 – May 2026

Bachelor of Engineering in AI & DS

Pune, Maharashtra

DNCVPS Shirish Madhukarrao Chaudhari College | (Percentage: 81.50 %)

Aug 2019 – May 2021

HSC, State Board

Jalgaon, Maharashtra

Dr.Ulhas Patil English Medium C.B.S.E School | (Percentage: 70%)

Jun 2018 – Mar 2019

SSC, C.B.S.E

Savda, Maharashtra

RELEVANT COURSEWORK

- | | | |
|----------------------|---------------------------------|---------------------------|
| • Machine Learning | • Data Structure and Algorithms | • Artificial Intelligence |
| • Data Analytics | • Probability and Statistics | • DBMS |
| • Big Data Analytics | • Data Visualization | • Data Mining |

INTERNSHIP / EXPERIENCE

Seven Mentor and Training Private Limited

Apr 2025 – Present

Intern

Pune, Maharashtra

- Developed an automated ETL pipeline to extract, transform, and load structured data for analytical workflows
- Conducted data analysis and visualization to uncover trends and patterns in real-world datasets
- Generated actionable insights to support business decision-making processes

CODETECH SOLUTIONS

Feb 2025 – Feb 2025

Intern

Pune, Maharashtra

- Built and optimized machine learning and deep learning models using Scikit-learn and TensorFlow, improving prediction accuracy by ~15–20% on test datasets
- Performed exploratory data analysis (EDA) on large datasets using Pandas and NumPy to identify trends and business insights
- Designed and developed Power BI dashboards to visualize KPIs, reducing manual reporting effort

PROJECTS

AI- Enhanced Career Guidance System for Personalized Pathway

June 2025 – April 2026

- Developed a real-time fire detection system using OpenCV and deep learning techniques
- Implemented image segmentation and feature extraction to improve detection accuracy.
- Trained classification model to distinguish fire vs non-fire images for automated monitoring systems

Fire Detection System Using Image Pre-Processing

June 2023 – July 2024

- Developed a real-time fire detection system using OpenCV and deep learning techniques
- Implemented image segmentation and feature extraction to improve detection accuracy
- Trained classification model to distinguish fire vs non-fire images for automated monitoring systems.

TECHNICAL SKILLS

- **Programming & Databases:** Python, C++, SQL
- **Data Science and Machine Learning:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, PyTorch, Power BI, Deep Learning, Statistical Analysis
- **Tools, Platforms & Deployment:** Jupyter Notebook, Google Colab, VS Code, Git, GitHub, Flask, FastAPI, OpenCV
- **Soft Skills:** Communication, Teamwork, Attention to detail, Problem Solving, Leadership
